# Slitting Machine

## Applications

Our slitting machine is applicable to slit OPP, CPP, PET, PVC, PAPER, METALIZED FILM/PAPER and LAMINATED FILM.

## Outstanding Features

1. Adopted Line Position Control (LPC) at unwind unit to monitor and control for keeping the substrate edge in correct position.
2. Machine equipped with quick job exchange system Knife setting easy for up and down, left and right.
3. High performance trimmed edge strip removing system.
4. Machine design takes account of operator comfort Operator Friendly Touch Screen with error display.
5. Laser core positioning system for quick and accurate core installation.

## Options Available

1. Edge Strip Winder
2. Unwind with hydraulic lift type
3. Laser Core Positioning via servo motor
4. Heavy slit rolls unloading mechanism
5. Circular Knife
